Equity Market Review

The KSE 100 Index rose 4.78% in June 2016 to close at 37,786.57 and increasing the Index's Calendar Year-to-Date (CYTD) return to 15.14%. The month started off with the announcement of the Budget FY2017, which was taken positively by the market participants amidst subsidies / incentives offered to the fertilizer and textile sectors. Further, in response to the MSCI's decision to upgrade Pakistan to the Emerging Market (EM) status, the KSE100 index, on June 17, 2016, reached its highest level of 38,776.94 points. However, an unexpected result of the Brexit referendum led to panic selling in equities worldwide, which had its effect on Pakistan equities as well and the investors looked to book profits. As rationality prevailed, the last few trading sessions saw the market recover as international markets also starting rising.

Average Index Volume for the month of June clocked at 120mn shares, 18.10% lower MoM (mainly owing to Ramzan). Foreigners were net buyers for the second consecutive month with an inflow of US\$74.2mn (includes one-time \$70mn Engro Fertilizer purchase), compared to US\$3.62m in May'16. Total foreign portfolio outflow in HY CY16 has come down to US\$41mn after these recent inflows. Companies and Banks were major sellers in June with a net outflow of US\$168m (including Engro Fertilizer outflow) and US\$23m, respectively. Most of the selling was absorbed by Individuals and NBFCs.

Banking sector capitalization increased 8.1% in June, in anticipation that inclusion of the larger banks in the EM Index will attract considerable foreign inflows in the sector. Cement sector rallied 6% as the negative effect of higher FED (as announced in the budget) was neutralized through an increase in cement prices by the manufacturers. Chemicals sector (mainly fertilizer) increased 5%. Oil and Gas sector rose 3% on back of recovery in oil prices globally. International oil prices reached highest levels of CY16 at around \$51 per barrel barrier before giving in to post Brexit economic scenario and currently hovering at April levels of \$48 a barrel. Pharma and Power sectors rose by 10.4% and 6.1% respectively, while Telecom sector declined by 2.84% during the month.

Money Market Review

Yields during the month remained under pressure, influenced by a reduction in auction cut-offs during the month and re-profiling by market participants who mainly looked to extend their investment maturities amidst heightened uncertainty of another rate cut and a massive PIB maturity in July.

In the auction held during the month, the SBP picked up an around Rs. 45b against a target of Rs. 100b and bids of around Rs. 228b. 3 yr cut-off yields reduced 14bps to 6.41% and those of 5 year and 10 year PIBs reduced 9bps and 16bps to 6.91% and 8.02%, respectively. Two T-bill auctions were conducted in June with yields in these auctions coming off by aggregate 9bps in the 3-month paper to 5.90% and 11bps in the 6- and 12-months paper to 5.89% and 5.91%. A total of Rs. 332b was picked up in these auctions against Rs. 200b target.

Fund Objective

To maximize capital appreciation by investing in a balanced portfolio of wide range of shares, Government and other fixed income securities and bank deposits.
